COVID-19 CASE COUNTS – COSTA MESA

CHILDREN – 70 (8/6)

NEW STATE RULES FOR TK-6 AND YOUTH SPORTS

TK-6 Waiver Process

- ❖ CDPH recommends that schools within jurisdictions with 14-day case rates more than two times the threshold to be on the County Monitoring List (>200 cases/100,000 population) should not be considered for a waiver to re-open in-person instruction.
- ❖ Closed elementary schools in counties on the monitoring list within the prior 14 days may not open for in-person instruction until they have received approval of a waiver submitted to the LHO.
- ❖ This elementary school waiver is applicable only for grades TK-6, even if the grade configuration at the school includes additional grades.
- ❖ [Complete Announcement](#)

What sports are allowed?

Youth sports and physical education are permitted only when the following can be maintained: (1) physical distancing of at least six feet between participants; and (2) a stable cohort, such as a class, that limits the risks of transmission (see [CDC Guidance on Schools and Cohorting](#)). Activities should take place outside to the maximum extent practicable.

REMINDER: CHECKLISTS MUST BE POSTED IN YOUR WINDOWS

COVID-19 General Checklist for Retail Employers

May 7, 2020

This checklist is intended to help retail employers implement their plan to prevent the spread of COVID-19 in the workplace and is supplemental to the [Guidance for Retail Employers](#). This checklist is a summary and contains shorthand for some parts of the guidance; familiarize yourself with the guidance before using this checklist.

Contents of Written Worksite Specific Plan

- The person(s) responsible for implementing the plan.
- A risk assessment and the measures that will be taken to prevent spread of the virus.
- Training and communication with employees and employee representatives on the plan.
- A process to check for compliance and to document and correct deficiencies.
- A process to investigate COVID-cases, alert the local health department, and identify and isolate close workplace contacts of infected employees until they are tested.

Topics for Employee Training

- Information on [COVID-19](#), preventing spread, and who is especially vulnerable.
- Self-screening at home, including temperature and/or symptom checks using [CDC guidelines](#).
- The importance of not coming to work if employees have a frequent cough, fever, difficulty breathing, chills, muscle pain, headache, sore throat, recent loss of taste or smell, or if they or someone they live with have been diagnosed with COVID-19.
- When to seek medical attention.
- The importance of hand washing.
- The importance of physical distancing, both at work and off work time.
- Proper use of cloth face covers.

Individual Control Measures & Screening

- Symptom screenings and/or temperature checks.
- Encourage workers who are sick or exhibiting symptoms of COVID-19 to stay home.
- Encourage frequent handwashing and use of hand sanitizer.
- Provide disposable gloves to workers using cleaners and disinfectants when required. Consider gloves as a supplement to frequent hand washing for other cleaning tasks such as handling commonly touched items or conducting symptom screening.
- Strongly recommend cloth face covers.
- Close or increase distance between tables/chairs in breakrooms or provide break areas in open space to ensure physical distancing.
- Communicate frequently to customers that they should use face masks/covers.

Cleaning and Disinfecting Protocols

- Perform thorough cleaning in high traffic areas.
- Frequently disinfect commonly used surfaces.
- Clean and sanitize shared equipment between each use.
- Clean touchable surfaces between shifts or between users, whichever is more frequent.
- Equip customer entrances and exits, checkout stations, and customer changing rooms with proper sanitation products, including hand sanitizer and sanitizing wipes, and provide personal hand sanitizers to all frontline staff (e.g., cashiers).
- Ensure that sanitary facilities stay operational and stocked at all times.
- Make hand sanitizer and other sanitary supplies readily available to employees.
- Use products approved for use against COVID-19 on the [Environmental Protection Agency \(EPA\)-approved](#) list and follow product instructions and Cal/OSHA requirements.
- Adjust or modify store hours to provide adequate time cleaning and stocking with physical distancing.
- Provide time for workers to implement cleaning practices before and after shifts, hire third-party cleaning companies.
- Install hands-free devices if possible.
- Encourage the use of debit or credit cards by customers.
- Encourage customers with reusable bags to clean them frequently and require them to bag their own purchases.
- Consider upgrades to improve air filtration and ventilation.

Physical Distancing Guidelines

- Implement measures to physically separate people by at least six feet using measures such as physical partitions or visual cues (e.g., floor markings, colored tape, or signs to indicate to where workers should stand).
- Minimize exposure between cashiers and customers. Where physical distancing cannot be maintained, use barriers such as Plexiglas. Where barriers are not feasible, strongly recommend that employees and customers wear face covers.
- Use signage to remind customers of physical distancing at every opportunity.
- Adjust in-person meetings, if they are necessary, to ensure physical distancing.
- Place additional limitations on the number of workers in enclosed areas to ensure at least six feet of separation.
- Stagger employee breaks, in compliance with wage and hour regulations, to maintain physical distancing protocols.
- Close in-store bars, bulk-bin options, and public seating areas and discontinue product sampling.
- Dedicate shopping hours for seniors and other vulnerable populations.
- Increase pickup and delivery service options such as online ordering for curbside pickup.
- Provide separate, designated entrances and exits.
- Limit the number of in-store customers based on the size of the facility.
- Be prepared to queue customers outside while still maintaining physical distance.
- Encourage and train employees to practice physical distancing during pickup and delivery.
- Make some locations pickup- or delivery-only to minimize physical interaction, if possible.
- Install transfer-aiding materials, such as shelving and bulletin boards, to reduce person-to-person hand-offs where possible. Wherever possible, use contactless signatures for deliveries.
- Expand direct store delivery window hours to spread out deliveries and prevent overcrowding.
- Ask non-employee truck drivers, delivery agents, or vendors who are required to enter retail locations to have their employees follow the guidance of local, state, and federal governments regarding wearing masks.

WAITING FOR COVID-19 TEST RESULTS?

STAY HOME AND KEEP OTHERS SAFE

Stay home if you are sick and self-isolate while waiting for your COVID-19 test results.

If you're not sick, check with your employer to see if you should return to work while waiting for your COVID-19 test results.

If you have symptoms and are waiting for tests results, you should:

Stay home, if you are sick except to get urgent medical care. Call ahead to let them know that you may have COVID-19. Avoid going out or riding public transportation.

Wear a face covering when you are in the same room as others at home.

Stay in another room or away from others in your home.

Check and track your symptoms. If your symptoms get worse, get medical help right away.

Everyone at home should

Stay home if you are sick.

Wash your hands often with soap and water for at least 20 seconds.

Clean and disinfect "high-touch" surfaces often like phones, bathrooms, remotes, counters, and doorknobs.

Wear a face cover and avoid close contact if someone is sick at home. Stay at least 6 feet apart.

Cover coughs and sneezes with your arm or use a tissue. Throw used tissue into trash.

Avoid touching your face with hands that are not clean.

Avoid sharing personal items like cups, dishes, utensils, towels, and bedding.

TESTING POSITIVE FOR COVID-19 WHAT HAPPENS NEXT?

If you or someone at home tests positive for COVID-19, take these steps:

Positive COVID-19 Test with Symptoms

If you or someone at home has a positive COVID-19 test result and **has symptoms** (i.e., fever, cough, shortness of breath or trouble breathing): Unless you are given different instructions, stay home and avoid contact with others until it has been:

- at least 3 days (72 hours) after you have recovered, meaning you don't have a fever without the use of fever reducing medicine (e.g., Tylenol, Advil)
- at least 10 days after your first symptoms appeared
- **and** respiratory symptoms (e.g., cough, shortness of breath) are improving

Positive COVID-19 Test with No Symptoms

If you have a positive COVID-19 test, but **have no symptoms**, stay home for 10 days from the date the test was taken.

Follow OC Health Care Agency's Guidance for Home Isolation of Patients with Suspected/Confirmed COVID-19: www.ochealthinfo.com/homeisolation

If you get a call from the health department, please take it seriously.

All positive COVID-19 test results are reported to the OC Health Care Agency (your local health department) for contact tracing to reduce the spread of COVID-19. We contact the person who tested positive for COVID-19 to see who else might have been exposed.

What We Ask for:

- Where you have been recently and who you have been in contact with
- The names and contact information of the those you have had close contact with so we can call them. We will protect your privacy and will NOT tell them who may have exposed them without your permission

What We DON'T Ask for:

- Social Security Number
- Immigration Status
- Credit card number

If you or someone tests positive for COVID-19 and are not able to stay at home:

Ask the OC Health Care Agency representative that contacted you for help with isolation.

FREE COVID-19 TESTING

If you need another test or need to find information for someone at home or work, visit ochealthinfo.com/covidtest to find where you can get tested.

COVID-19 RESOURCES

For more information on help with getting food, losing a job, trouble paying rent, or getting medical care, visit covid19info.ocgov.com.

For more COVID-19 information, please visit www.ochealthinfo.com/novelcoronavirus or call the OC Health Care Agency's Health Referral Line at (800) 564-8448.
